

STARGAZER

*Man has for millennia wondered
what lies beyond the flickering lights
cast over our skies. Gentle and subtle
but still profoundly distinct the
Medori Melon flavor
will encompass your senses.*

TRANQUILITY

*Clear your mind of expectations
and give in to the spirits eternal
wish for inner piece and tranquility.
Mystical fruits from hidden temple
grounds held in a forgotten forest,
paired with sapphire blue berries.
Let it sooth your restless spirit.*

HARMONY

*Crisp passionfruit fused with the
soft sweet round autumn mango.
Together forming a perfect balance
much like Ying and Yang
each others opposite but still carries
a aspect of one another,
thus it's name
Harmony*

MINDFULNESS

*To live in the moment,
to let the moment live in you.
Hear the crickets melody,
scent the freshly cut cantaloupe
Beware of the dove that watches
you from the dusky forest as you
pinch the newly plucked strawberries
painting your skin read.
Bushido honors the Mindful.*
